Work Experience

Website Designer 2021
Yello Solution

I worked as a website designer at Yello Solution, a dynamic and innovative web design company. At Yello Solution, I had the opportunity to unleash my creativity and technical skills to craft visually stunning and user-friendly websites for a diverse range of clients. My role involved collaborating with clients to understand their specific requirements and translating them into captivating designs that aligned with their brand identity.

WebScraping 2022
IT Vision

I worked as a web scraper at IT Vision, a leading technology company specializing in data analytics and information retrieval. As a web scraper, my role was to gather and extract valuable data from various websites and online sources. Using advanced scraping techniques and automation tools, I retrieved and organized vast amounts of information with precision and efficiency.

Wordpress 2023
RfitSolution

At RFITSOLUTION, I proudly served as a skilled WordPress developer with a specialization in Elementor and eCommerce website design. With my expertise and experience, I excelled in creating captivating and user-friendly websites that seamlessly integrated with the Elementor platform.

As an Elementor expert, I harnessed the power of this intuitive drag-and-drop page builder to craft visually stunning and highly functional eCommerce websites. Leveraging Elementor's extensive range of customizable widgets, I brought clients' visions to life, providing them with tailored solutions that met their unique requirements.

In summary, my expertise as a WordPress developer at RFITSOLUTION focused on leveraging Elementor and eCommerce website design to create visually appealing, user-friendly, and fully functional websites.

Summary

I am an expert in web development, specializing in web scraping and Python programming. With my skills, I can efficiently extract data from websites and automate various tasks. I have a deep understanding of HTML, CSS, and JavaScript, which allows me to build dynamic and interactive web applications. My passion for web development and Python continually drives me to stay updated with the latest technologies and best practices, ensuring optimal performance and user experience.
